## Code Annotation Examples

### Codeblocks 3

Some `code` goes here.

### Plain codeblock

A plain codeblock:

```
def myfunction()  
    // some comment
```

### Code for a sepecific language

Some more code with the `py` at the start:

**bubble\_sort.py**

```
import tensorflow as tf  
def whatever()
```

### With line numbers

```
1 import tensorflow as tf  
2 def whatever()
```

### With line numbers highlighted

```
import tensorflow as tf  
def whatever()
```

# English

Video Example

COSTA RICA IN 4K 60fps HDR (ULTRA HD)
